Profile

I am Zia-Ur-Rehman, a frontend developer with one year of experience at VirtueNetz. I work on building responsive and user-friendly web interfaces using tools like HTML, CSS, Tailwind, JavaScript, ReactJS and NextJS. During my time at VirtueNetz, I have worked on several projects, I value teamwork and continuous learning in my career.

Experience

Frontend Developer (virtueNetz)

I am Ziaur Rehman, a front-end developer. At Virtuenetz, I worked on several projects that provided value to clients. I focused on creating user-friendly interfaces and ensuring a smooth, responsive experience for users across different devices.

Frontend developer Internship (virtueNetz)

During my internship, I learned how to work, learn, and grow in a collaborative environment. I gained valuable experience contributing to projects and providing value to clients. This opportunity also helped me polish my skills and enhance my professional growth.
